

## **Marinvent Corporation Announces New NASA Flight Test Contract for its US JV Partner Advanced Aerospace Solutions**

**Montreal, Quebec, May 29, 2014** – Marinvent Corporation is pleased to announce that its US Joint Venture partner Advanced Aerospace Solutions has this week been awarded a major contract by NASA Langley. This new contract involves the use of Marinvent's Piaggio P180 Avanti advanced flight test aircraft for the flight test and evaluation of NASA's latest NextGen technologies.

"Advanced Aerospace Solutions has been working very closely with NASA Langley providing flight test and evaluation services for NextGen technologies using Marinvent's Piaggio Avanti for the past two years," said Phil Cole, VP Business Development at Marinvent Corporation and Advanced Aerospace Solutions. "We have established an excellent working relationship with the team at NASA and the other partners on the NextGen research team and we are delighted to have been trusted with this latest work package that will allow us all to take the project even further."

### **About Marinvent & Advanced Aerospace**

Advanced Aerospace Corporation and Marinvent Corporation are aerospace R&D test and evaluation companies, headquartered in Raleigh, NC and St-Bruno, QC respectively, whose major function is to reduce the risk, life cycle cost, time to develop, and time to certify novel aerospace technologies for fixed wing, rotary wing and unmanned platforms. The companies specialize in Flight Test Services, Systems Engineering, Human Factors Engineering, Aerospace Consulting, Flight Test & Certification Training, Software Development, Government Procurement Services and Civil Certification. The companies have a stellar track record and have been awarded numerous Supplemental Type Certificates (STC), ranging from single display upgrades to complete cockpit retrofits, such as the Honeywell CDS/R® retrofit for the Piaggio P180 aircraft, which included a completely new Electronic Flight Instrumentation System, FMS, INS AHRS, autopilot interface, radar, lightning detection, EGPWS, T2CAS, and RVSM certification. Advanced Aerospace Solutions and Marinvent Corporation have more than 100 combined years of experience in aerospace R&D, with a customer base that includes Governments around the world, NASA and every major avionics manufacturer in North America and beyond.
